# Why rice noodles?

We recommend Miga Rice Noodles in the following cases:

1. You can carry Miga Rice Noodles portably when going camping, climbing, fishing and travel home and abroad.

You can enjoy the noodle easily and quickly in 3~4 minutes with boiling water.

2. Miga Rice Noodle is good as a late-night meal or simple snack.

The fatless dried noodle is digestible food, not being heavy to the stomach.

We recommend the rice noodles rather than the strong-tasting ramen with high calorie to children.

Miga Rice Noodle is a simple but enough meal for busy people and those who are tired of ramen.

4. Good for a hangover!

The cool soup taste of Miga Rice Noodle will help you feel much better in the days after drinking.

5. Fun to pick and mix!

We expanded the range of choices with five flavors.
